

CARMEN'S PROFESSIONAL GRADE FLOORING ADHESIVE **SINCE 2010**

Carmen's One-Step™, Urethane professional-grade flooring adhesive for all known glue-down applications, flooring types and substrates. It is made by flooring professionals for flooring professionals. There is actually a Carmen behind Carmen's One-Step™

Since 2010, it has been the go-to product for residential, commercial, institutional and industrial flooring projects. It has been used in the office towers that fill the Chicago Skyline; Trump Tower; famous mansions, suburban homes, hospitals, schools, malls, sports facilities, factories etc. It is part of so many success stories. Here's how it can be part of yours:

Save money. Save Time.

One product to order.

One product to stock.

One product for every situation.

One less thing to worry about.

**Protect your profit with the simplicity
& proven effectiveness of Carmen's One-Step™**

**PINK BUCKET
GUARANTEE:
YOUR FLOOR STAYS AS
PERFECT AS YOU
INSTALL IT.**

Here are just 10 easy-to-understand benefits.

1. Reduce costly unproductive time - Arrive ready to work. Ready for the unexpected.
2. Reduce installation time and complexity - Meet your deadlines and avoid fines.
3. Reduce clean-up labor costs - Easy-to-clean formula is an "installer's dream".
4. Reduce "oh \$@%" moments - no more applying the wrong adhesive to the wrong product. No more bringing the wrong product to the job site.
5. Reduce admin and inventory costs - One adhesive to order and stock. No more partially-used specialty products.
6. Reduce complexity of project planning and pricing - one adhesive for the whole job - big or small
7. Reduce training time and customer complaints - One easy-to-use adhesive with No Hollow-Spot™ technology and excellent ridge retention.
8. Reduce demolition costs: bonds to standard substrates and problematic ones like tile.
9. Reduce "losing" your adhesive on busy job sites - Carmen's One-Step™ is in bright pink bucket!
10. Reduce your doubt - you've got this!! There is actually a Carmen - a caring, wonderful lady - behind Carmen's One-Step™. She takes great care of her family, employees and clients. She hopes Carmen's One-Step™ helps you do the same.

More about Carmen's One-Step™.

- Bonds to solid hardwood, engineered hardwood, bamboo, cork, rubber, plywood, parquet, tile (mosaic, ceramic, porcelain, marble etc.).
- Bonds to substrates including tile, plywood, OSB, well-bonded vinyl, concrete, cement patch, gypsum, terrazzo, radiant heated subfloors.
- Specialized product texture for easy and precise application.
- Superior ridge retention.
- Excellent green strength! Bonding starts right away.
- Generous open/ working time of up to 3 hours.
- Ready for light foot traffic within 8 hours.
- Ready for heavy traffic within 24 hours.
- Once cured, it has a super tensile strength of >395 PSI

More Good News:

- LEED Qualified and California Proposition 65 Compliant.
- Stubbornly water-resistant - a tile-on-tile application submerged in water is still holding after 3 months!
- Adhesive survives weather extremes - think of an uninsulated cabin in Northern Wisconsin where there are warm summers and cold winters.
- Long-lasting! A tile-on-tile application in the kitchen of a Rozzati's Pizzas is still in place since 2010.

Yes, it's right for jobs big and small - in any setting:

- Residential - suburban home, sprawling mansion
- Commercial- strip malls, shopping malls, offices and office towers
- Industrial - factories, assembly locations
- Institutional - hospitals, schools, sports facilities, government buildings, airports.

It is this simple.

Carmen's One-Step™, urethane professional-grade flooring adhesive for all known glue-down applications, flooring types and substrates. It is made by flooring professionals for flooring professionals.
